

Change Password

Your district has configured the Frontline Health Portal. If you have been granted password rights, you may be able to change your password from within the Health Portal.

Health Portal Home page (partially shown) with the My Account menu

To change your password, select [My Account](#)>[Change Password](#) to view the Change your password page.

Change your password page (partially shown)

Enter your **Old Password** and **New Password**, then re-enter your new password in the **Confirm New Password** field.

Review the Electronic Service Agreement and select **I have read and agree to the Electronic Signature Acknowledgement and Consent**.

Click **Change Password**.
